## **INDIGENISATION OF ARMAMENT STORES FOR INDIAN NAVY**

### **DIRECTORATE OF ARMAMENT PRODUCTION AND INDIGENISATION**

#### **About The Organisation**

Directorate of Armament Production and Indigenisation under DGNNAI at IHQ-MoD(N) is the Authority Holding Sealed Particulars (AHSP) for all Naval Armament (NA) Stores of the Indian Navy. Further, Indigenisation of NA Stores for the Indian Navy, is one of the primary charters of the Directorate.

#### **Address:**

Directorate of Armament Production & Indigenisation  
Integrated Headquarters MOD (Navy)  
West Block -V, Wing No. 1 (FF)  
RK Puram, New Delhi – 110 066  
Ph No.: 011-26194691  
Email: [dapi.ihq@navy.gov.in](mailto:dapi.ihq@navy.gov.in)

## **INDIGENISATION OF NAVAL ARMAMENTS**

### **Organisation**

1. The indigenisation of Naval Armament stores is being undertaken by Director General of Naval Armament Inspection (DGNAI) since late 1980's. In view of increased indigenisation activities and enhanced role of Naval Armament Inspectorate (NAI) organisation, re-organisation of DGNAI was undertaken by forming of two Directorates viz. Directorate of Armament Production and Indigenisation (DAPI) and Directorate of Naval Armament Inspection (DNAI).

2. DAPI was established in Apr 2017. The role and responsibility of indigenisation of NA stores has been entrusted to DAPI since its inception. Subsequently, following Indigenisation Cells (ICs) were created at:-

- (a) Contollerate of Naval Armament Inspection(West), Mumbai
- (b) Contollerate of Naval Armament Inspection(East), Vishakhapatnam
- (c) Contollerate of Naval Armament Inspection(South), Alwaye
- (d) Contollerate of Naval Armament (Ordnance Factory), Pune
- (e) Contollerate of Naval Armament (Defence Production), Hyderabad

3. In addition, following NAI cells at DRDO labs have been mandated to associate during the R&D activities being undertaken for NA stores:-

- (a) NAI Cell at HEMRL, Pune
- (b) NAI Cell at ARDE, Pune
- (c) NAI Cell at NSTL, Vishakhapatnam

4. DAPI along with Indigenisation Cells at Controllerates and NAI Cells at DRDO Labs is responsible for indigenisation of Naval Armament stores. The role and responsibilities includes:-

- (a) Provide input towards formulation of QRs wrt indigenisation of Naval Armament stores.
- (b) Indigenisation of fast moving components/ spares/ consumables and explosives for all NA stores, their fitment and functioning trials and acceptance into service.
- (c) Undertake in-house indigenisation of NA stores, sub systems/ spares and prepare their drawings, specifications, inspection/ proof schedules, inspection criteria, in association with DRDO/ DPSUs/ Trade.
- (d) Render technical advice on indigenous NA stores, their design, stability, safety and reliability including design modification.

(e) Maintain close liaison with DGQA, DGAQA, DPSUs, DRDO and private firms on indigenisation/ production QA related issues of NA stores.

(f) Associate in R&D projects during technical/ user/ environmental trials, transfer of technology and evaluation of NA stores.

(g) Coordination with various authorities on design, development, manufacture, proof, testing and standardisation of NA stores.

5. Organisation Chart for indigenisation of NA stores is as shown at Figure 1 below and the communication details of various indigenisation cells are placed at Table 1 below.

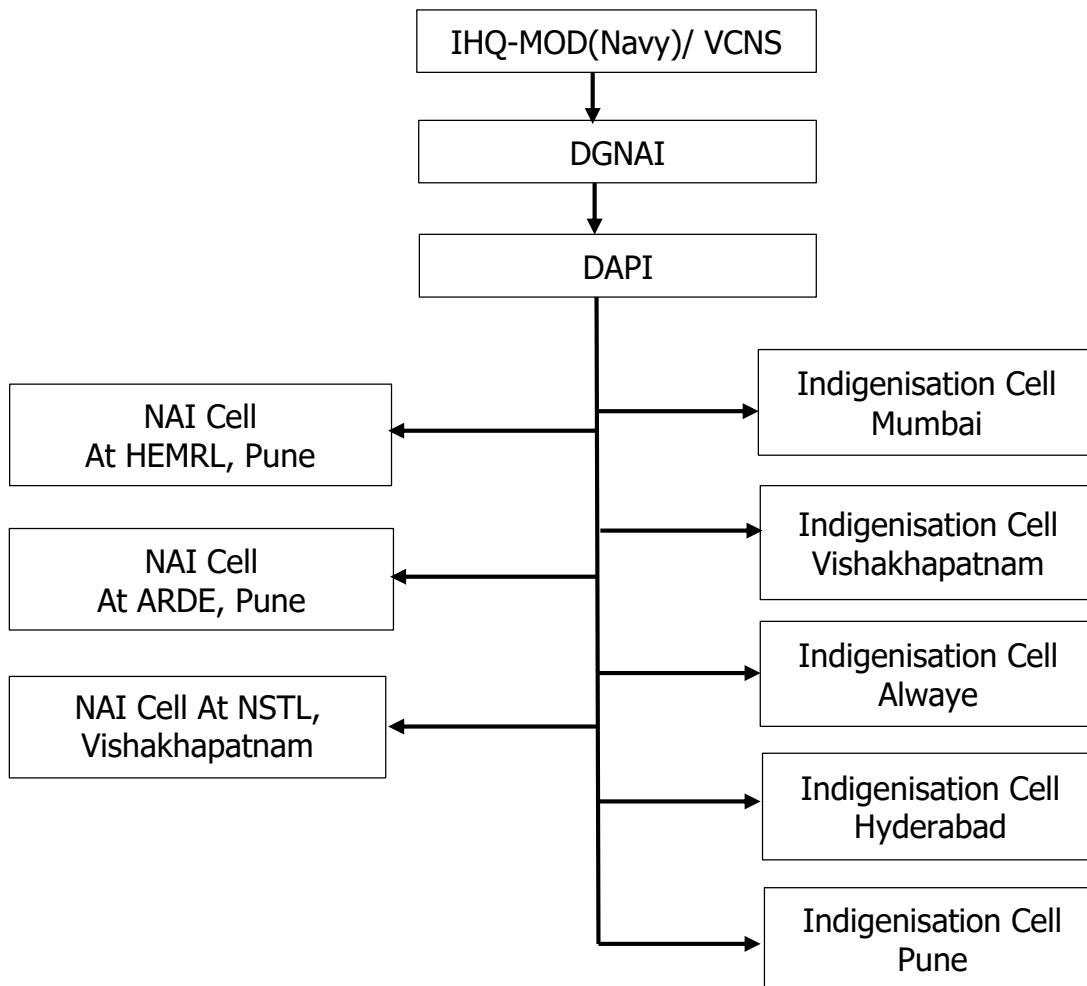

Figure 1: Organisation Chart for Indigenisation of NA stores

Table 1: Communication Details of Indigenisation Cells

<u>Ser.</u>	<u>Indigenisation Cell</u>	<u>Communication Address</u>	<u>Contact Details</u>

### **Indigenisation Routes**

6. Indigenisation projects for NA stores are progressed under following routes:-

(a) **Revenue Scheme**. This route is exercised through funds allotted to IHQ-MoD(N)/DAPI. Appropriate funds are sub-allocated to respective Indigenisation Cells through Admin Authorities.

(b) **Make II/ III Schemes**. "Make II/ III - Industry Funded" scheme has been described in Chapter III of Defence Acquisition Procedures (DAP) 2020. It primarily focuses on import substitution through development/ upgradation of systems. In this sub-category, no government funding is envisaged for prototype development, but has assurance of orders on successful development and trials of prototype.

(c) **Technology Development Fund (TDF) Scheme**. The Technology Development Fund (TDF) operated by DRDO was setup in union budget 2014-15. This scheme aims at funding the development of Defence & Dual use technologies. The funding is done to public/ private industry especially MSMEs and only Indian vendor including Association of Person are eligible for this scheme. Each project is capped at 10 Crore with a development period of two years.

(d) **DRDO Projects**. The indigenisation of NA stores is also progressed through DRDO. DGNAI is the Co-Chairman for the IN-DRDO Synergy - Armament Combat & Engineering (ACE) Cluster.

(e) **iDEX.** The iDEX (Innovations for Defence Excellence) initiative was launched by the Hon'ble PM in Apr 18 with the aim to achieve self-reliance and foster innovation and technology development in Defence and Aerospace by engaging industries including MSMEs, Start-ups, individual innovators, R&D institutes and academia. Defence India Start-up Challenge (DISC) is being launched since then with Problem Statements (PS) from Armed Forces and DPSUs. iDEX has provision of providing funding to shortlisted vendors upto 10 Cr under various schemes.

### **Indigenisation Methodology at ICs**

7. Following methodology would be followed for indigenisation of stores:-
  - (a) **Development Procedures.** The procedure followed for indigenisation of stores are as per Chapter 15 of DPM-2009 (through Indian industries) or Chapter IV of DAP-20.
  - (b) **No Cost-No Commitment (NCNC) Basis.** The Production Agencies (PAs) are at times engaged for development of stores on NCNC basis. In such cases, the Indigenisation Cells will generate Paper Particulars (PPs) in association with the Production Agencies (PAs). The store will be declared developed and bulk production may be initiated based on satisfactory trials and approval of IHQ-MoD(N)/DAPI.
  - (c) **Indigenisation through DRDO/ Academia.** Stores shall be taken up for indigenisation through DRDO/ Academia wherever feasible, post discussion with respective development agencies in DcPP mode.
  - (d) **Sample Based Indigenisation.** In view of large number of stores required to be indigenised and constraints on resources for generation of drawings/ paper particulars, samples will be issued to development agencies (DAs) for indigenisation. The DAs shall be responsible for generation of drawings and identification of material, etc. based on the sample provided under the supervision of concerned Indigenisation Cell. The RFP may be formulated accordingly.

### **Indigenisation List**

8. A list of more than 400 types of stores integral to missiles, torpedoes and other underwater stores, guns, gun ammunition, etc. is attached at '**Appendix A**'.

### **Details for Correspondence**

9. In this list, stores have been assigned to various Indigenisation Cells as brought out above. Industries possessing the required infrastructure, capability, expertise and desirous of taking up indigenisation/ manufacturing of the listed components may get in touch with respective Indigenisation Cells (for contact details refer Table 1 above).

**Appendix A**  
**(Refer Para 8 above)**

**LIST OF NAVAL ARMAMENT STORES FOR INDIGENISATION**

<b>SNo</b>	<b>Item Description</b>	<b>End Use</b>	<b>MOQ (05 yrs)</b>
<b>STORES ASSIGNED TO IHQ-MOD(Navy)/ DAPI</b>			
	<b><u>Make-III Projects</u></b>		
1.	Development of 76/62 SRGM ammunition (HE and HEPFF variants)	76/62 Super Rapid Gun Mount (SRGM)	23,376 (for 10 yrs)
<b><u>DRDO Projects</u></b>
